Instructions:

- Write a SELECT statement (using subquery) for the following queries. Provide a column alias. To be able to answer the problems, please refer to PUBS database.
- When you submit your answers, name the file **Quiz1_** followed by **your last name**.

Problem: (6 pts each)

1. What books/titles were sold in a store named 'Bookbeat'?
Title of Book
2. Who among the authors have two or more books/titles published by "Cengage Learning"? For author name, concatenate the first name and last name separated by a space. For example, Joyce Farrell.
Author Name
3. How many stores have sold a book with two or more authors?
Count of Stores
4. Who among the authors have written/authored more than five (5) books?
For author name, concatenate the first name and last name separated by a space. For example, Steve Morris.
Author Name
